

## STARTING POINTS FOR G MAJOR DOUBLE STOP SERIES

A & E STRINGS: Start with SHORT double stop, skipping one fret between notes.

D & A STRINGS: Start with MEDIUM double stop, skipping 2 frets between notes.

G & D STRINGS: Listed below are two double stops. The first uses the open D string with the B note. This is the 3rd shape in our series or the LONG double stop, but feels different because of the open D string. Play the B note with your middle finger. The second double stop on these strings is comprised of the Root and 5th of the chord - the SHORT double stop. Play the Root with your middle finger and the 5th with your ring finger.
